

## INFO

I am looking for a training opportunity for you.. I am currently a senior student in computer science in king Saud University. I am very energetic person and i would like to join your esteemed company to perceive and add value.

## EDUCATION

### King Saud University -

Computer science  
Expected graduation year 2020

## EXPERIENCE

### COMPUTER LANGUAGE PROFICIENCY

- JAVA.
- C.
- SQL.

## ACHIEVEMENTS

### Projects:

The first project I have done is a restaurant. I applied the Add Order or Delete Order process and calculate the orders prices . As i have other projects, including a project talking about electronics store, I have implemented a program and linked it with the GUI. There was also a project talking about the pharmacy, for example, deleting expired medicines or adding a customer buying medicines or retrieve the name of the drug purchased on Monday, and so i linked it with the GUI and then linked with SQL

## SKILLS

English  
Language (60%)

Microsoft Office  
(100%)
